HANDPICKED®

---

## We are a dynamic and contemporary family-owned Australian winery.

We approach things a little differently than most. Driven by a passion to make great wines, we do not limit ourselves to one region or style. Instead we 'hand pick' from the world's best regions to make premium wine with a supreme sense of place.

Our home base is Australia, where we make wine in some of our favorite places; including the Mornington Peninsula, Yarra Valley, Tasmania, Margaret River, the Barossa Valley, as well as in Central Otago and Marlborough (New Zealand)... just to name a few.

Doing Things  
Differently

## Our Winemaking Philosophy

There is no formula for winemaking, no one best method for extracting the most out of grapes. What each parcel of fruit offers is unique and must be treated as such.

Each year we aim for the best quality but aren't looking for cookie-cutter-like repeatability. Each wine has to be a living capsule that is able to express a particular time and a place in liquid form.

There are thousands of variables that influence the final outcome of the wine. We pride ourselves on looking at what the season has offered us and translating that into the highest quality wines we can make.

# Sustainable Winemaking Starts In The Vineyard

Cover crops improve soil health by adding nutrients and nitrogen to the soil

Our soil management program includes biodynamic preparations, deep ripping, under vine cultivation and herbicide elimination

Organic conversion means happier vines, cleaner air and water, greater biodiversity and better wines

**At Handpicked, we have accepted the challenge to tread lightly on the earth and make positive changes where we can.**

We focus a lot of energy on sustainability in our vineyards including managing flora and fauna biodiversity, organic matter, soil improvements, integrated pest management and water efficiency.

In 2021 we embark on organic certification in our Tasmanian vineyards after years of organic management. This is a continual journey we are looking to build upon across all our vineyards and operations.

# Minimal Intervention Winemaking

We believe in letting the vineyard speak for itself. We pride ourselves on looking at what the season has offered us and translating that into the highest quality wines we can possibly make.

## SORTING TECHNIQUES

---

The grapes for our premium wines are hand-harvested. We check every bunch over a sorting table, to ensure the highest quality. The fruit is chilled before processing to preserve freshness.

## YIELD PER HECTARE

---

Lower yields of grapes means less wine overall, but more importantly it means more intensity of flavor.

## VINEYARD WALKTHROUGHS

---

We have a minimal intervention approach which means we like to spend as much time in the vineyard as we do in the winery.

The connection to the place where the fruit is coming from is so important to us that it is essential to spend as much time as possible out in the field and ensure our vines are happy and healthy.

## BARREL SELECTION

---

A unique mix of oak is applied to each region, with no cost spared and only the highest quality coopers selected.

## DAILY FERMENT ROUND

---

We taste every ferment daily to monitor progress and decide on how each individual wine needs to be treated, to allow it to become the best version of itself.

# Our Vineyards

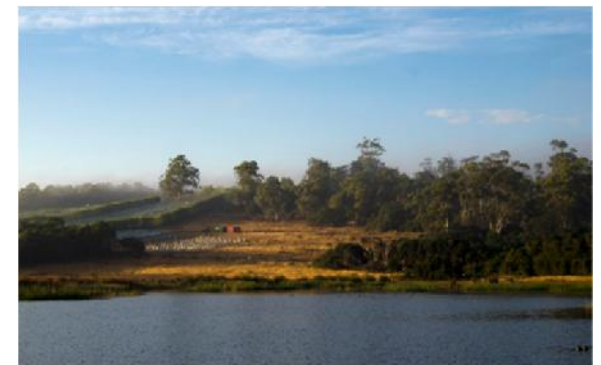

We are located in some of the best wine regions around Australia and maintains long term partnerships with local and trusted vigneron.

Capella Vineyard  
Mornington Peninsula

Watunga Road Vineyard  
Barossa Valley

Auburn Road Vineyard  
Tasmania

Wombat Creek Vineyard  
Yarra Valley

Highbow Hill Vineyard  
Yarra Valley

Native Point Vineyard  
Tasmania

# Our Wines

The Handpicked portfolio brings together a premium selection of wines from the world's best wine regions showcasing a vast array of wine styles and varietals.

NUMBERED SERIES

---

In our quest for perfection, these classic luxury wines are made in tiny quantities from special parcels of fruit.

SINGLE VINEYARD

---

Rare single vineyard wines only released in the finest vintages from our carefully managed vineyards.

COLLECTION

---

Premium wines crafted to reflect a sense of place and exceptional character.

REGIONAL SELECTION

---

Classic varieties grown in the earth that suits them best.

A photograph of a vineyard. In the foreground, there are rows of grapevines with green leaves. A wooden post stands in the middle ground, with a small white bird perched on top. The background shows a body of water reflecting the sky. The text "Thank You" is overlaid in the center.

Thank You
